

FloraGuard

FloraGuard is an enhanced formula that provides both friendly bacteria (probiotics) and prebiotics to give our digestive system the support it needs to perform more efficiently.

Features:

1. Provides friendly bacteria (probiotics), 10 billion CFU/serving.
2. Brewers type yeast and inulin is added as prebiotics in this formula to enhance the activity and proliferation of the beneficial bacteria.
3. Helps support a healthy balance of beneficial bacteria for your gastrointestinal tract health.
4. Powder form to prevent death of bacteria during tableting process.
5. Packaged in amber glass bottle to protect against heat and UV rays.

Directions:

Mix one (1) scoop into 3 oz of cold water, stir and drink immediately on an empty stomach, twice daily.
