

GlucoGuard

GlucoGuard is formulated based on scientific evidence that minerals, vitamins and green food are beneficial for overall well-being. Its chromium is extracted from organic yeast which has a better bioavailability than inorganic forms of chromium.

Features:

- Contains a special blend of minerals (Chromium, Vanadium, Manganese & Magnesium), B-vitamins (biotin & pantothenic acid), antioxidant vitamins (vitamin A, C & E) and green food (spinach & young barley).
- B vitamins assist in the release of energy from carbohydrates, proteins and fats, to meet added energy needs brought on by stressful living.
- Each tablet provides a standardized amount of chromium extracted from yeast - 200 mcg.

Directions:

Take 1 tablet after a meal daily.
