

OxyPlus

Oxygen in the body needs to be replenished constantly. Cells use co-enzyme Q10 (CoQ10) to generate energy they need to function. Our bodies produce this enzyme when we are young but when we age, the production begins to decrease.

OxyPlus contains a blend of vegetable seed, sesame seed concentrate and Panax Ginseng powder. This herbal preparation is used traditionally for individuals who wish to stay healthy and energized.

Features:

- For people wish to pursue an active lifestyle.
- For athletes and those whose work require constant energy and a fit body.
- For overall maintenance of good health to stay active.

Directions:

Take 1 capsule as a dietary supplement.
